

January 2019 in the Library

4th grade

4th graders talked about how to create strong passwords and what should/should not be shared online...

They were also introduced to Job Carr - the founder of Tacoma. We discussed "Why do we even care? Why is he important?" and they had some very interesting answers!

5th grade students discussed Cyberbullying and Spam emails - analyzing some of the spam emails that I had received that morning. They caught some things that I missed! Way to go!

We also started our discussion of the 13 colonies by watching John Brannan's retelling of "The Three Little Pigs" (in Shakespearean English)!

5th grade

6th grade

This month, we looked at how to be a good "digital citizen" and how the advertising industry edits and selects pictures for ads, magazines, and more to accomplish their goals. We talked about how those pictures might not actually be as they seem.

We also looked at the techniques used in movie trailers, using the 2 movies at the right. We saw the original, then a trailer for each that changed it into a horror movie with simple techniques! It was eye-opening!

This month, we looked at both fiction and nonfiction books on refugees and sharks. We learned how sharks are NOT the mindless killers shown on things like "Shark Week". We even watched a video with a shark conservationist petting Tiger Sharks (who came back repeatedly for the affection).

We finished off with a couple of great books on breakfast foods! Yummy!

Kindergarten - 3rd grade

...and you, Ms. Rose and Ms. Terry? What have you been up to?

"Librarians save lives by handing the right book at the right time to a kid in need."
—Judy Blume
